Water Swivels

- Light Type Water Head
- Heavy Type Water Head
- Underground Water Head

Water heads are offered in various configurations to meet different operational requirements, including underground and surface drilling. Designed according to drilling depth and application conditions, these heads provide reliable water flow and contribute to efficient drilling processes.

Hoist Plugs

- Standard Maneuver Head
- Heavy Duty Maneuver Head

Maneuver heads are available in two types: Standard and Heavy Duty. The Standard Maneuver Head is recommended for shallow drilling operations, while the Heavy Duty Maneuver Head is an ideal choice for deeper drilling operations.
